

Moulder: **Gustav Hensel GmbH & Co. KG**

MuCell® Product: Electrical Enclosure

Material: PC GF 20

Machine Type: Engel 650 t, 105 mm screw

Statement of Value Proposition:

In order to ensure optimal manufacturing conditions, HENSEL has efficient, modern machinery and fully automatic production lines. The production is characterised by future-oriented and innovative injection moulding techniques, in particular the MuCell® Technology, to fulfill highest quality standards.

Economic Benefits:

- Efficient and modern manufacturing process

Quality Benefits:

- Dramatically reduced warpage and improved dimensional stability
